Hey Roger,

Following up from our conversation earlier. You asked if Store 8470 was on the remain active list and I confirmed the store was disconnected, as American Freight did not include this store to keep open. With that being said, we can look into the services below for reinstallation if approved by American Freight. Please note- we will likely need to install a brand new Comcast circuit, which would be the responsibility for American Freight to pay for any installation charges along with inside wiring. There are some items I need to check with my team on below but please confirm that it is American Freight's desire to turn the below services back on:

Team,

From a systems standpoint, we should leave on the Tucker DC & Store, and the Livonia DC & Store, until further notice, as we still need to vacate inventory from those locations.

Good morning Roger,

Hope all is well. Not sure what you mean on approvals. Since we have been receiving approvals for disconnects from you throughout the course of the account, then we will proceed with disconnecting all but the 33 stores you mentioned on 12/31, as you mentioned that you'd like stay active until then. I'll make sure that Store 9240 is not on the list.

For the equipment, we are not able to coordinate dispatches for all 200+ stores that would be required for those 2 days. We ask that any equipment that can be mailed back from those locations is mailed back to us from those locations. We are happy to provide you with any shipping labels to facilitate this. We would need the email address for each store representative who is going to ship back.

Thank you,

**Andrew Dion**

Hey Roger,

This is received. Thanks for letting me know that 31 stores you mentioned below will not be disconnected as of the 12/31 date. I'll put a workbook together of what those stores are and what services are at each location.

Would you be able to provide us with more information on such termination? Should we plan to have every store disconnect processed for 12/31? If Services are requested to flow through 12/31, i.e. not be interrupted, then disconnects will have to begin on 12/31 and additional billings, such as disconnect fees, may appear for two more billing cycles. If there are any stores and/or services that can be disconnected before that time, let us know and we can begin processing the disconnects immediately.

Thank you,
